PROFILE

Entry-level Java Developer and BCA graduate with strong fundamentals in Core Java, Advanced Java, OOP principles, DBMS, and SQL. Hands-on experience in Java Full Stack concepts including backend development, basic REST APIs, and frontend technologies (HTML, CSS, JavaScript). Currently undergoing Java Full Stack Developer training and eager to contribute to real-time projects while learning industry best practices. Willing to learn new programming languages and open to relocation based on project requirements.

SKILLS

Programming Languages: Java | SQL | Python
| C | C++

Web Technologies: HTML5 | CSS3 | JavaScript
(ES6+) | React js | Redux

Backend: MySQL | Java | Spring Boot – learning |
Python | Django - learning | REST API basics

Tools & IDEs: Eclipse IDE | Git | GitHub | Visual
Studio Code | Postman | MySQL Workbench

Software Development Concepts: Object-Oriented
Programming (OOP) | Basic SDLC | DBMS | Basic
Testing | Code readability, documentation, and
maintainability

PROJECTS

AYE AUTO

Flutter, Python full stack,
Auto Rickshaw Booking System (Campus-Based App)
Developed a campus-based auto booking system
handling backend logic, database operations, and core
user workflows.

Designed and developed a booking system to help
college students and staff efficiently reserve auto
rickshaws through a queue-based application. The
platform allows drivers to mark availability, users to
make advance payments, and includes features such
as automated email notifications, an in-app chat
system, and ride reviews to enhance user-driver
interaction.

Technical Practice & Coursework

- Solved multiple Java programming problems covering core and advanced concepts
- Applied OOP principles such as inheritance, polymorphism, abstraction, and encapsulation in practice programs
- Developed console-based applications (e.g., student management system, utility tools)
- Practiced problem-solving and coding through structured assignments and exercises

EDUCATION

Bachelor of Computer Applications

Kannur University

06/2022 – 03/2025 | Kannur, India.

Percentage - 77

CGPA: 8.1 / 10

Higher Secondary - Science

Sir Syed Higher Secondary School

06/2020 – 03/2022 | Kannur, India

Percentage - 82

EXPERIENCE

Java Full Stack Developer (with Python) – Intern KODNEST Academy

08/2025 – 06/2026 | bangalore

- Undergoing hands-on Full Stack Developer Intern program focused on industry-ready skills
- Working with Core Java, Advanced Java, and Python programming concepts
- Practicing Object-Oriented Programming (OOP) principles and clean coding standards
- Learning full-stack development using Java, Python, Spring fundamentals, SQL, and frontend technologies
- Learning backend development fundamentals and application flow
- Creating responsive frontend applications using HTML, CSS, and JavaScript
- Working with MySQL for database design, queries, and data handling
- Learning and applying Spring Boot and Django frameworks (basics)
- Applying skills through hands-on assignments and mini-projects

Project Intern – Software Development

RISS Technology, Kannur 10/2024 – 03/2025

- Worked as a Project Intern on an industry-supported software development project.
- Developed **AYE AUTO**, a campus-based auto rickshaw booking system using Flutter, Python, and SQL.
- Implemented backend logic, database operations, and core booking workflows.
- Performed basic application testing, debugging, and documentation.
- Gained hands-on experience in real-world development practices under industry mentorship.

CERTIFICATES

AI Coding 📄 , Campus Project 📄 , Full Stack
Development Certification 📄

CURRENTLY LEARNING

- Spring, Spring Boot and Hibernate Frameworks
- Django (Python Web Framework)
- React fundamentals
